

Readme File for Self-Extracting Zip Files

AlphaStation XP1000 Online Service Guide

This self-extracting executable file will install the AlphaStation XP1000 Online Service Guide onto your PC.

When you click on the XP1000sg.exe file, it will install a folder called “XP1000 Service Guide” into the TEMP folder on your C: drive, or wherever else you choose to install it when prompted. Place the folder wherever is most convenient for you.

A copy of this document will be installed in the same place. For future reference, keep it with the “XP1000 Service Guide” folder.

You may have to refresh your Explorer screen after installing to see the installed folder and Readme File. To view the Service Guide after it is installed, open the “XP1000 Service Guide” folder, open the “service” folder, and click on “aa_begin.htm”.
